

# EPA registered daily defense against C.diff Spores

Kills C.diff spores in 2 minutes

# **Efficacy**

Kills C.diff spores in 2 minutes

Kills Norovirus

Kills 99.999% of most germs in 30 seconds

- MRSA
- VRE
- **HBV**
- HIV
- E.Coli

- Salmonella
- Klebsiella Pneumonia
- Pseudomonas Aeruginosa
- Acinetobacter Baumannii
- Influenza A: H1N1 Multi-drug resistant Bacteria
  - Other Bacteria, Viruses, and Fungi

### Areas of Use

- Operating Rooms
- Patient rooms and bathrooms
- ICU Areas

- Food preparation and contact areas
- Glass and Mirrors
- Stainless Steel
- High touch surfaces including hospital bed rails, bed tables, door handles, sinks, telephones, etc.

#### **Features**

- **EPA** Registered
- Broad spectrum microbial action
- Bleach Free disinfectant, sanitizer, and sporicide
- Effective bactericide and viriucidal disinfectant in the presence of 5% blood serum
- Effective bactericide and viriucidal disinfectant in the presence of organic soil
- FDA clearance under 40 CFR §180.940 for use as a sanitizer on food contact surfaces
- Made in the USA

# **Benefits**

- One step hospital-use germicidal disinfectant cleaner
- Formulated to prevent cross-contamination on hard, non-porous surfaces
- Single-use, non-corrosive, product for most surfaces, with no rinse/wipe required
- Ready-to-Use HMIS Safety Rating of 1-0-0, with no PPE required
- Removes mineral deposits
- Improve room turnover times
- In-Use safely applied electrostatically

C. Diff (Clostridium difficile) caused almost half a million infections among patients in the United States in a single year, according to a study released by the Centers for Disease Control and Prevention (CDC)

Preventing infections with NoroxyCdiff makes hospitals more profitable. CDC reports C.Diff costs hospitals almost \$5 billion in excess health care costs.

#### **Proven Results**

	NOROXYCDIFF™	OXYCIDE™	BLEACH
<b>Cdiff Kill Time</b>	2 minutes	3 minutes	2 - 5 minutes
Viruses Kill Time	2 minutes	5 minutes	2 - 5 minutes
Bacteria Kill Time	2 minutes	3 minutes	2 - 5 minutes

#### **Convenient Solution**

NOROxyCdiff is a concentrate solution that is mixed with water. Simply pour the NOROxyCdiff from the 4oz. container into one gallon of water. Be sure to read all NOROxyCdiff directions on master label thoroughly prior to use.

NOROxyCdiff can be applied as a liquid using standard touchless cleaning protocols or via trigger spray bottle; and wiping with absorbent towels for cleaning clinical surfaces.

NOROxyCdiff has outstanding disinfectant properties. It is effective against bacteria, molds and virus. The reason for the excellent and rapid antimicrobial effects of NOROxyCdiff is the specific capability to penetrate through the cell membrane. In the cell, the peracetic and acetic acid irreversibly disrupts the enzyme system, which in turn leads to destruction of the microorganism. NOROxyCdiff has shown disinfectant properties in relevant efficacy tests.

- Bleach
- Ammonia
- Phosphates

## **Active Ingredients**

Hydrogen Peroxide	27.3%
Peroxyacetic Acid	5.9%
Others Ingredients	66.8%
Total	100%

- Leaves no visible residue
- Evaporates completely
- · No rinsing required
- Clear drying formula

NOROxyCdiff is distributed through a network of regional distributors within the U.S. Please contact PreVasive for additional information.
